

## 2015 Virginia Assessment Group Conference

**Knowing Our Worth, Showing Our Worth:  
Demonstrating Quality and Value through Assessment**

**November 18-20, 2015  
Crowne Plaza Hotel, Richmond VA**

- ❖ Sharing effective practices that communicate assessment results to various stakeholders, including faculty, campus leaders, parents, policy makers, and students themselves;
- ❖ Highlighting research-based practices for getting usable data into the hands of those who need it; and
- ❖ Promoting the dissemination of assessment results in both the popular and scholarly press.

*Knowing Our Worth, Showing Our Worth: Demonstrating  
Quality and Value through Assessment*

Crowne Plaza  
Richmond, VA  
November 18-20, 2015

Hello Colleagues:

Welcome the 2015 annual conference of the Virginia Assessment Group, *Knowing Our Worth, Showing Our Worth: Demonstrating Quality and Value through Assessment*. We are glad that you have taken time from your schedules to attend this meeting of assessment professionals, faculty, and other welcome guests.

By attending the 2015 conference you are a member of the Virginia Assessment Group, the nation's oldest continuing professional higher education assessment organization. Board members strive to share a "community of practice" among all members and seek to engage in the work of assessment with students, faculty and administrators to fulfill the Group's purpose and mission:

- ❖ To promote quality higher education through assessment and institutional practices;
- ❖ To serve as a network for communication and collaboration among institutions of higher education, state and federal agencies, and accreditation bodies;
- ❖ To offer professional development opportunities; and
- ❖ To serve as a forum for the exchange of ideas.

On behalf of the Virginia Assessment Group, I hope that you can find a conference experience that touches on at least one, if not all, of the purpose and mission statements above. Welcome to Richmond!

Tim Merrill  
President-Elect, Virginia Assessment Group

**Conference Planning Committee**

A special “thank you” is deserved for the following Virginia Assessment Group members who contributed time to the creation of this year’s conference.

## Detailed Schedule of Events

### **Wednesday November 18: 5:30 – 7:00pm**

Opening Reception & Discussion Salon A, Grand Ballroom

*Knowing our Work, Sharing our Scholarship*

Attendees are invited to participate in an open discussion about the scholarship of assessment. This conversation, facilitated by **Tim Merrill**, Virginia Assessment Group (VAG) President-Elect; **Katie Busby**, Research & Practice in Assessment (RPA) Editor; and **Curt Naser**, New England Educational Assessment Network (NEEAN) President, will focus on the opportunities assessment organizations have to promote and publish scholarly research in higher education assessment. RPA and the Journal of Assessment and Institutional Effectiveness (JAIE) are scholarly journals in higher education assessment and are generously supported by VAG and NEAAN respectively.

The leaders of the respective journals and organizations have engaged in exciting discussions about advancing scholarly assessment work and invite you to join in those conversations. These facilitators will also share important information about the resources needed to support such publications and opportunities for publishing your scholarly work.

### **Thursday November 19: 7:30 – 8:30am**

Continental Breakfast Grand Ballroom

### **Thursday November 19: 8:45 – 10:00am**

Opening Plenary Session Grand Ballroom

*Back to our Assessment Future: Our Five-Year Assessment Checkup*

**Charlie Blaich & Kathy Wise**, Center for Inquiry, Wabash College & HEDS

In 2010 and 2011, we published two articles, *Moving from Assessment to Institutional Improvement* and *From Gathering to Using Assessment Results: Lessons from the Wabash National Study*, in which we gave a number of recommendations about how to do assessment so that it was more likely to improve student learning. These recommendations were based on our assessment work over the previous five years with colleges and universities. It's now about five years later, and, in light of our more recent experiences, we think it is time to assess our recommendations from those articles. In this presentation, we will highlight our recommendations, as well as some of the national conversation about assessment at that time, and talk about what we got right and what we missed.

10:00 – 10:15am Break #1 Pre-function Foyer

**Thursday November 19: 10:15 – 11:15am**Concurrent Session #1Drake Ballroom

*Learning Technology Incubator: Assessing Impact of Faculty Pedagogical Innovation across Courses and Disciplines*

**Judith Giering**, Director, Learning Design & Technology, **Juliet Trail**, Director of Assessment, both of University of Virginia

The Learning Technology Incubator faculty grant program has provided faculty funds to investigate innovative applications of technology and pedagogy. A key aspect of the program has been the approach to assessment and dissemination of outcomes.

Assessment is integral to innovation. Results from our initiative will be shared, and the presenters will generate discussion among participants on the benefits and challenges of faculty grant programs as revealed through assessment.

Concurrent Session #2Raleigh Ballroom

*Efforts in Transparency: Go Google!*

**Brandon Combs**, Assistant Director of University Assessment, University of Kentucky

This presentation will share the experience of the University of Kentucky's Office of University Assessment in developing user friendly software solutions that assist in institutional assessment activities. The presenter will discuss the status of the Office of University Assessment, where it has been, where it is now, and where it is going. Also, experiences in choosing an Institutional Effectiveness software solution, website development, and best practices in "closing the loop" will be discussed.

Concurrent Session #3Georgian Ballroom

*The Power of Reliable Rubrics: Promoting Equitable and Effective Assessment Practices through Collaboratively Designed Rubrics*

**Whitney Bortz**, Director of Assessment, Radford University

Utilizing detailed rubrics can increase the validity and reliability of the assessment process. Furthermore, rubrics can also enhance student learning by enabling instructors to provide higher quality and more specific feedback. Presenters will share how an interdisciplinary team of faculty collaboratively wrote three assessment tools and rubrics to be used across multiple programs. While this process was originally motivated by accreditation requirements, the team also views these as powerful tools for student learning and program improvement. Presenters will share about the writing process, rolling tools out to other faculty, establishing reliability and validity, and utilizing rubrics for student growth.

11:15 – 11:30am Break #2Pre-function Foyer

**Thursday November 19: 11:30 – 12:30pm****Concurrent Session #4****Drake Ballroom*****Online Learning Assessment at the University of Virginia*****Adam Hughes & John Echeverri-Gent**, both of University of Virginia

We present the results of an original assessment study conducted at the University of Virginia, meant to measure student learning for undergraduate majors in the Department of Politics. Our results indicate that additional coursework strongly predicts learning. We show how to use online survey technology and simple statistical analyses to create and conduct flexible and customizable original learning assessments at other institutions.

**Concurrent Session #5****Raleigh Ballroom*****The Virginia Plan for Higher Education and Assessment*****Joe DeFilippo & Wendy Kang**, both of SCHEV

The State Council of Higher Education for Virginia (SCHEV) has adopted a strategic plan framework—the Virginia Plan for Higher Education—that prioritizes four broad goals for the commonwealth:

- Provide Affordable Access for All
- Optimize Student Success for Work and Life
- Drive Change and Improvement through Innovation and Investment
- Advance the Economic & Cultural Prosperity of the Commonwealth & its Regions

At its September 2015 meeting Council adopted a resolution designating six priority initiatives to support achievement of the four goals. Among these initiatives is:

Collaborate with institutions to measure the quality of undergraduate education, including civic engagement of graduates and relevance to demand occupations across regions of the state.

At this session, SCHEV staff will present information about council's strategic plan and invite a dialogue about how the referenced initiative can best be implemented. For further information, see: <http://schev.edu/schev/StrategicPlan.asp>.

**Concurrent Session #6****Georgian Ballroom*****Integrating Assessment into the Culture of Academic Support Units*****Shantya Plater**, Institutional Effectiveness and Accreditation Analyst, Old Dominion University

Due to the ever changing requirements in assessment from accrediting bodies, the need to assess academic support units and co-curricular program is becoming extremely popular. The Assessment Coordinator of Old Dominion University will share their accounts on how to integrate the culture of assessment into academic support units. By attending this session attendees will learn how to incorporate student learning outcomes and program objectives into the assessment of Academic Support Units. The presenters will share their university's process of assessing student learning in academic support units to fill SACSCOC standard requirements.

**Thursday November 19: 12:30 – 1:45pm**

Virginia Assessment Group Business Meeting &amp; Lunch

Grand Ballroom

**Thursday November 19: 2:00 – 3:00pm**Concurrent Session #7Drake Ballroom*Closing the General Education Assessment Loop: Beyond Faculty Pedagogy***Kellie Sorey**, Associate Vice President for Academics, **Jennifer Ferguson**, Director of General Education Assessment and Transfer Partnerships, both of Tidewater Community College

Facilitators will describe Tidewater Community College's general education assessment pilot and changes to it since its inception. Efforts to improve faculty pedagogy to better support student learning will be highlighted. But, as TCC faculty and leaders discovered, changes were needed in the areas of policy, procedure and curricula. These changes will be discussed. During the session, participants will share lessons they've learned through implementation of their own general education assessment plans. Participants will also be asked to self-assess their programs and determine what changes may be needed to improve the assessment process and student learning at their colleges.

Concurrent Session #8Raleigh Ballroom*Supporting Campus Partners with Searchable Online Assessment Data***Stephanie Hazel**, Acting Director, Office of Institutional Assessment & **Rawa Jassem**, Web Developer and Applications Analyst, both of George Mason University

This session will share George Mason University's approach to providing assessment survey data in searchable, online databases. Participants will have the opportunity to interact with the data by focusing on real-life institutional case studies to explore how the data could be used by programs across campus. Presenters will discuss how partnerships with campus groups have led to more effective and better use of assessment data. Successes and challenges will be discussed, as well as options for small assessment offices.

Concurrent Session #9Georgian Ballroom*Aqua: A Simpler Path to More Meaningful Assessment***(SPONSORED) Ben Coulter**, Taskstream

Meet Aqua by Taskstream™, a refreshingly easy-to-use-system designed to provide a simpler path to more meaningful assessment. Join us to learn how Aqua can help you get to outcomes data more easily, remove many of the common barriers to assessment, and engage in meaningful conversations about student learning. Get a first-hand look at the simple and intuitive interfaces that received high praise from faculty scorers from nearly 90 institutions across 13 states that piloted this technology as part of the AAC&U's VALUE initiative and the Multi-State Collaborative to Advance Learning Outcomes Assessment pilot study led by AAC&U and SHEEO.

3:00 – 3:15pm Break #3Pre-function Foyer

**Thursday November 19: 3:15 – 4:15pm**Concurrent Session #10Drake Ballroom*Putting Program Review into Practice***(SPONSORED) Casey Iannone**, Consultant, Campus Success, Campus Labs & **Jeananne Knies**, Graduate Assistant for Assessment, Virginia Tech

Program review is a common practice among institutions of higher education. It is one of the primary means by which an institution analyzes its educational offerings and the operational support for them within the context of institutional effectiveness. Join us as we discuss the various dimensions of a student affairs program review process and best practices throughout higher education. Casey Iannone, Campus Labs, will review the major components of an effective program review while Jeananne Knies, Virginia Tech, will be sharing Virginia Tech's program review process and discussing the role of assessment within its Student Affairs Division.

Concurrent Session #11Raleigh Ballroom*Faculty Members' Suggestions for Making Assessment More Meaningful***Molly Hall**, Assistant Director, Office of Assessment and Evaluation & **Penny Burge**, Professor, Leadership, Counseling and Research, both of Virginia Tech

What do faculty members believe could be done to make assessment activities more meaningful? In this session, the presenters will share the results of a recently completed empirical study in which a total of 20 faculty members were interviewed from three different types of educational institutions in Virginia: (1) a public, research-intensive university; (2) a public, comprehensive university; and (3) a private, liberal arts college. Session presenters will highlight barriers that participants believe prevent assessment activities in higher education from being meaningful to faculty members as well as specific strategies for improving assessment activities.

Concurrent Session #12Georgian Ballroom*Closing the Assessment Loop: Using Implementation Fidelity Data to Make Informed Changes to Programming***Madison Holzman**, Assessment Consultant & **Carolyn Miesen**, Assessment Consultant & **Sara J. Finney**, Senior Assessment Specialist, all of James Madison University

In higher education, we develop programming to foster student learning. However, often students do not meet the learning outcomes, and we may be unsure why. Implementation fidelity assessment can provide insight into why we observe certain learning outcomes (i.e., can help explain outcomes assessment results), and can give us insight into what programming to change to improve student learning. In this session, we will define implementation fidelity assessment and demonstrate how it can be coupled with outcomes assessment data to provide more accurate information about program effectiveness to stakeholders and make informed changes to programming, consequently improving student learning.

4:15 – 4:30pm Break #4Pre-function Foyer

**Thursday November 19: 4:30 – 5:30pm**Concurrent Session #13Drake Ballroom*Using Open-Ended Needs Assessment Data for Improvement***Charlie Goss**, Liberty University

Have you ever wanted to dig in deep with open-ended student feedback? Come learn about how Liberty University conducted a needs assessment designed to gather open-ended feedback leading to improvement. Not only will you see specific examples of actual improvement plans, but you will also be given a method by which to conduct the same survey and analysis at your institution.

Concurrent Session #14Raleigh Ballroom*Assessing Campus Climate (Sexual Harassment & Sexual Assault): From Process to Product***Lee Rakes**, Director of Institute Assessment & Evaluation, Virginia Military Institute

The process of assessing campus climate, to include instrument development and implementation, will be the focus of this session.

Concurrent Session #15Georgian Ballroom*Rubric Evolution: How Revising an Interdisciplinary Rubric Engages Faculty in Conversations about Teaching and Learning***Ashlee Mills Duffy**, Auburn University

Departments at institutions of higher education often exist as silos, with rare opportunities for interdisciplinary conversations about student learning. For three years, Auburn University's ePortfolio Project has provided a context by which faculty from across the university can engage with one another using a common framework outlined in the ePortfolio Rubric. This year, we are engaging interdisciplinary faculty in a conversation about the quality of a revised ePortfolio rubric. Our year will be spent facilitating discussions about student learning, faculty expectations, and how our revised rubric will serve as a tool for improving teaching and learning across the institution.

**Friday November 20: 7:30 – 9:00am**

Full Breakfast

Grand Ballroom

**Friday November 20: 9:00 – 10:00am**Concurrent Session #16Drake Ballroom*Dynamic Data: Quick Tricks for Creating Interactivity and Data Visualizations***Lanah Stafford**, Senior Research Associate, **Kelsey Kirland**, 4-VA Assessment Coordinator, both of Old Dominion University

This hands-on session will introduce participants to the “slicer” option in Excel and the “explore” option in Google Drive. Using laptops (bring yours) and a sample data set, participants will be able to navigate these tools in order to create meaningful data displays. The purpose of this workshop is to provide resources for assessment professionals to support the university community in a self-exploration of data.

Concurrent Session #17Raleigh Ballroom*You Don't Have to Be Bad to Get Better: Creating a Culture of Assessment for Improvement in Academic and Administrative Units***Scott Oates**, Director, Assessment and Institutional Effectiveness, & **Shannon Cribbs**, Director, Planning and Organizational Excellence, both of Virginia Commonwealth University

This session focuses on Virginia Commonwealth University's Academy for Assessment That Matters. The Academy provides support and instruction for academic and administrative units that are ready to develop assessment practices that yield useful, actionable information. The session will include information about how the co-directors secured support from executive leadership for the Academy; the structure of the Academy; and an interactive session with attendees using the tools and exercises provided to participants that enabled them to develop an assessment project that “matters.”

Concurrent Session #18Georgian Ballroom*Building Assessment Capacity in Academic and Student Affairs***Whitney Bortz**, Director of College Assessment, Radford University & **Jeananne Knies**, Graduate Assistant for Assessment, Virginia Tech

Creating a culture of assessment with buy-in from faculty and student affairs professionals can be a challenge on many campuses. Come learn about ways two campuses, Radford University and Virginia Tech, increased assessment capacity with their faculty and student affairs professionals respectively. The purpose of this session is to provide tangible ways you can increase capacity at your institution.

10:00 – 10:15am Break #1Pre-function Foyer

**Friday November 20: 10:15 – 11:15am**Pecha Kucha SessionsGeorgian Ballroom*Coaching: Guides by the Side Leading Improvement and Change***Linda Townsend**, Assessment Coordinator, Longwood University

What do you think of when you hear the word “coach”? Sports, debate team, voice lessons? How about assessment? As institutions search for pathways to support understanding of assessment and promote a cultural change, professional development approaches such as coaching should be considered. Come explore Pecha Kucha style why and how Assessment Coaches could work for your institution.

*If a Mind-Blowing “Aha” Moment Occurs and There is No Assessment Tool to Capture It, Has It Really Happened?***Stephen Biscotte**, Coordinator for General Education, Virginia Tech

Awe-inspiring life-changing “Aha” moments in the science classroom are elusive but powerful for students. I argue that if instructors are not attending to the characteristics of Dewey’s transformative ‘aesthetic experience’ in their lessons, then students are not doing (learning) science and will fail to meet any valuable outcomes identified for general education. And if we don’t create and embed assessment instruments to capture these transformative experiences, then we may be missing some of the most powerful evidence of student learning and program effectiveness.

Concurrent Session #19Drake Ballroom*Learning from SACS-COC Peer Evaluators: Commonly Cited Issues with Outcomes Assessment in Student Support Services***Jodi Fisler**, Director of Student Affairs Planning & Assessment; Assistant to the VP for Student Affairs, College of William & Mary

Compliance with SACSCOC outcomes assessment standards has been a challenge for some institutions, particularly in the area of student services. This session is based on a content analysis of comments from SACSCOC on-site and off-site review teams, covering more than 300 institutions from 2011-2014. The presenter will delineate key expectations embedded in the SACSCOC standard related to outcomes assessment in academic and student support services (CS 3.3.1.3) and identify factors that commonly lead peer evaluators to judgments of non-compliance. The presenter will offer pointers on avoiding these pitfalls and developing outcomes assessment programs that satisfy the SACSCOC standard.

**Friday November 20: 10:15 – 11:15am**Concurrent Session #20Raleigh Ballroom*Action Plans and Beyond: The Importance of Designing for Evidence of Improvement***Tim Fowler**, Associate Director of Institutional Assessment, Liberty University

This presentation will present an improvement model in which data is used not only to inform action plan development, but also to evaluate the action plan's effectiveness. Best practices in action plan development will be discussed, along with real-life examples from both academic and co-curricular entities. In recent years, simply taking action based off assessment findings is not enough, and this presentation will give ideas for closing the loop on the assessment cycle while demonstrating improvement.

**Friday November 20: 11:15 – 12:30pm**Closing Keynote & Box LunchGrand Ballroom*At the Crossroads with Assessment and Teaching & Learning: A Pathway for Future Practice***Peter Doolittle**, Assistant Provost for Teaching and Learning, Executive Director, Center for Instructional Development and Educational Research (CIDER) Virginia Tech, & **Keston Fulcher**, Executive Director Center for Assessment and Research Studies, James Madison University

As assessment practitioners, we are at a crossroads. Colleges and universities in the United States have been conducting assessment for over 25 years yet there are few examples of actual improvement to show for it. Many organizations are beginning to realize that assessment by itself will NOT bring about better student learning outcomes. To improve student learning we need more effective curricula and pedagogy. The bad news is we rarely talk about these topics in depth at assessment conferences. The good news is that centers for teaching and learning (CTL), most often operating independently of assessment offices, focus on these areas.

Many higher education groups are beginning to notice that these two pieces should be brought together - CEHE, AAC&U, NILOA, and my home institution for example. But, we're at the very early stages of figuring out how that can be done.

The purpose of this closing plenary is to formally launch VAG's thinking about this topic. The first step is for us as assessment practitioners to understand more about pedagogy and curriculum - the things CTLs are so good at.

Thank you to our sponsors!

The Center for Instructional Development and Educational Research (CIDER) fosters the design, development, implementation, and evaluation of disciplinary and interdisciplinary learner-centered instruction; promotes and recognizes excellence in higher education instruction; supports and conducts research on the scholarship of teaching and learning; and advocates for a campus climate that values educating the whole student through effective, innovative and transformative instruction.
