Inspiring Leadership for Innovation & Collaboration in Assessment

2019 CONFERENCE

November 13-15, 2019
Delta Hotels Richmond Downtown
Richmond, VA

Dear Colleagues,

It’s that time of year again! Welcome to Richmond for the 32<sup>nd</sup> Annual Conference of the Virginia Assessment Group: *Inspiring Leadership for Innovation & Collaboration in Assessment*. We are excited to have you as participants this year!

There is hardly a more beautiful time of year for assessment professionals from Virginia and beyond to come together through our organization. We hope to provide space to share ideas, add to your network, and find answers to your questions. Each year, the volunteer leadership of our organization works hard to plan and coordinate an annual conference for the benefit of our members. We hope that this year will prove to be a valuable experience for you.

This year’s conference features opening keynote speaker Dr. Ereka Williams, NILOA Coach and Associate Dean for the College of Education at Fayetteville State University in North Carolina. Mr. Isaac Castillo, Director of Outcomes, Assessment, and Learning at Venture Philanthropy Partners joins us as our closing keynote speaker.

In addition to many of our mainstay conference activities, this year, we’re excited to offer a free **Pre-Conference Workshop by Watermark** on Wednesday, a **Roundtable Session** of facilitated discussions on Friday, and the launch of our new initiative, **Rapid Responders**. We are grateful to Watermark for sponsoring the free workshop and lunch. We hope to make timely and relevant pre-conference events a VAG Annual Conference tradition.

Speaking of tradition, we have selected some of the finest eateries in Downtown Richmond for our networking dinners. **On Thursday night, the VAG Board members will host dinners at five local restaurants.** We designed these dinners to introduce you to some of our Board members and a handful of your colleagues (although not included in the conference registration fee).

We look forward to a great conference, and as always, we thank you – Virginia Assessment Group members - for your attendance, volunteer efforts, assessment expertise, and willingness to collaborate with such a rich group of professionals.

Make plans to join us next year right here in Richmond, VA. The 33rd Annual Conference will be held at the Delta Hotel Marriott in downtown Richmond from November 11-13, 2020.

Enjoy the Conference!

Cordially,

Denise Ridley-Johnston
2019 President-Elect and Conference Chair
Richmond, VA
2019 CONFERENCE PROGRAM OVERVIEW

WEDNESDAY, NOVEMBER 13, 2019

11:30 – 12:00  Pre-Conference and Conference Registration
12:00 - 4:00 pm  Pre-Conference Workshop by Watermark
4:00 – 6:00 pm  Conference Registration
5:30 – 7:00 pm  Opening Reception & Poster Session
7:00 - 9:00 pm  Board Dinner Meeting

THURSDAY, NOVEMBER 14, 2019

7:30 – 9:00 am  Registration
7:30 – 9:00 am  Full Breakfast
8:30 – 9:30 am  Welcome & Opening Keynote
9:40 – 10:40 am  Concurrent Session 1
10:50 – 11:50 am  Concurrent Session 2
12:00 – 1:00 pm  Lunch & Business Meeting (included in registration)
1:15 – 2:15 pm  Concurrent Session 3
2:30 – 3:30 pm  Concurrent Session 4
3:30 – 3:45 pm  Refreshment Break
3:45 – 4:45  Concurrent Session 5a-c
3:45 – 5:00 pm  Concurrent Session 5 d-e
6:00 pm  Group dinners at local restaurants (optional event, not included in registration) Meet in lobby

FRIDAY, NOVEMBER 15, 2019

7:30 – 9:00 am  Full Breakfast
8:30 – 9:30 am  Closing Keynote
9:45 – 10:45 am  Roundtable Session
10:45 – 11:00 am  Break/Hotel check out
11:00 – 12:00 pm  SCHEV Update/Jodi Fisler

THANK YOU FOR THE SUPPORT

As Chair of the Conference Planning Committee, I would like to extend my deepest gratitude to everyone who made this year’s conference possible, notably to the talented and highly motivated Committee and to this year’s Proposal Reviewers. I especially wish to thank Past President Stephanie Foster and President Ryan Otto for mentoring me through the process, putting the program together, and teaching me a few tips and tricks along the way! Denise

Ereka Williams

Ereka R. Williams, PhD serves as Associate Dean for the College of Education at Fayetteville State University. Prior to FSU, she spent 15 years at North Carolina Agricultural and Technical State University as tenured faculty, undergraduate/graduate programs coordinator, and chairperson within the College of Education.

It was there where her leadership in Curriculum, Instruction and Assessment landed her the responsibility of leading the institution’s engagement with Lumina’s Degree Qualifications Profile (DQP) SACSCOC/HBCU Project (2012). As a result, Dr. Williams was a featured presenter on the DQP/HBCU initiative at the SACSCOC Annual Meeting (2012) and SACSCOC Summer Leadership Conference (2014). Dr. Williams’ leadership of the Lumina/SACSCOC project lead to her work with the National Institute for Learning Outcomes and Assessment, where she started as a DQP Coach in 2014.

Isaac Castillo

Isaac D. Castillo is the Director of Outcomes, Assessment, and Learning at Venture Philanthropy Partners (VPP). Isaac has over 20 years of performance management, evaluation, and outcome measurement experience. His areas of interest and expertise include youth development, juvenile justice, academic achievement, healthy behaviors and decision making, and employment.

Isaac currently manages and oversees VPP’s approaches and processes related to data collection, data reporting, and outcome measurement. He evaluates VPP’s investments in collective impact initiatives and high-performing nonprofits which are designed to improve youth outcomes. Isaac also provides evaluation capacity building technical assistance to each of VPP’s investment partners. This includes helping organizations improve their data collection capacity, developing a performance management culture, assisting with evaluation designs, and helping organizations think strategically about using evaluation findings.
Track:  **Using Innovative Reporting and Data Visualization Techniques**  
**Inspiring Collaboration Through Assessment ShareOuts by Utilizing Data Visualization**

I will discuss the assessment culture of the student affairs division at Virginia Tech. In my discussion, I will emphasis that the division has made strides to ensure departments are sharing out assessment information in a plausible fashion. When communicating assessment data to stakeholders and leadership, the information needs to be communicated effectively and clearly. I will explain Assessment ShareOuts and describe how this initiative develops an assessment culture of collaboration and cultivates innovative reporting techniques. I also will show examples of previous Assessment ShareOuts created and explain how individuals can incorporate this practice at their institution/organization.

*Presenter(s): Jade Kline, Virginia Tech*

Track:  **Other**  
**The Use of Generalizability Theory to Determine Measurement Error on an Ethical Reasoning Performance Assessment**

James Madison University has implemented a unique, campus-wide learning opportunity in ethical reasoning. A suite of assessment instruments complements the five cognitive ethical reasoning student learning outcomes. One assessment, the Ethical Reasoning – Writing Essay, is a performance assessment that asks students to respond to an essay prompt. The students are rated using a rubric. To make valid inferences, measurement error in the scores should be minimized. We use Generalizability Theory in order to determine the influence of rater judgement on scores and to assess the reliability and generalizability of the scores.

*Presenter(s): Brielle Pedrick, James Madison University; Brian Leventhal, James Madison University*

Track:  **Collaborating with Libraries and Other Co-educators for Quality Assessment**  
**It Takes a Village: Auburn University’s Collaborative Approach to Oral Communication Assessment**

Assessing oral communication as a general education outcome is challenging for many campuses. After an unsuccessful attempt of gathering video footage from seniors delivering presentations in 110 degree programs in capstone courses, we are implementing a centralized assessment of oral communication, requiring some seniors to submit presentations online through Canvas. Our two data collection attempts required collaboration with many units across campus. Details about our two approaches and the necessary collaborations (e.g., with Online Services, Accessibility, our Learning Management Support team) are described in this poster.

*Presenter(s): Daphney Portis, Auburn University; Megan Good, Auburn University*
Track: Other

Thinking critically: what predicts students' critical thinking ability?

Development of critical thinking skills are an essential part of the college experience. Assessing critical thinking possess several challenges, but understanding how to predict/identify students who struggle to develop these skills is essential. Using the ETS HEIghten Critical Thinking Test, we perform a multiple regression to identify predictors of critical thinking ability. We investigate the relationship between critical thinking ability and several covariates, such as demographic variables, information literacy skills, and course completion. Results and implications will be discussed.

Presenter(s): Phillip Holmes, James Madison University; Brian Leventhal, James Madison University

Track: Collaborating with Libraries and Other Co-educators for Quality Assessment

Evaluating the Impact of Personal Librarians on Academic and Affective Outcomes

Personal librarian (PL) programs - in which librarians reach out to and act as primary contact for the library for a population of students, generally with the aim of improving students' familiarity and comfort with academic libraries - exemplify the growth of library services beyond the physical library. A developing study at the University of the District of Columbia seeks to determine whether the presence of a personal librarian and student use of PL services in a general education class affect information literacy-related academic outcomes and student confidence with information literacy skills.

Presenter(s): Cathy Meals, University of the District of Columbia

Track: Collaborating with Libraries and Other Co-educators for Quality Assessment

Using Data Analytics Software to Facilitate an Examination of Correlations Between Participation in Library Instruction and Student Achievement Indicators

This poster will demonstrate how the presenters are using the EAB learning analytics platform to facilitate the investigation of the relationships between library instruction programming with student academic success and achievement indicators. The presenters share the preliminary results and observations from the first phase of the study. Finally, this poster will describe challenges and opportunities in designing and engaging in a study that collects sensitive information from students.

Welcome & Opening Keynote

The Promise of our Practices: Leveraging Equity, Engagement, and Effectiveness in Higher Education through Assessment

To inspire, innovate, partner and lead in higher education is to connect, relate and personalize the postsecondary experience. Assessment at its best connects and personalizes the relationship between teaching and learning in ways that elicit equitable outcomes for all learners. However, at times, assessment in higher education remains narrowly framed or misconceived as external to the teaching-learning process, superimposed, compliance-driven, and/or irrelevant. Misconceptions or perceptions along those lines unfortunately contribute to inequitable practices and outcomes for students thereby limiting assessment's potential and promise. While great attention and many resources have shifted towards this field over the last two decades, room for growth remains. For those charged with leading assessment efforts on 2- and 4-year campuses across the Nation, the utility and impact of this work presents us with great opportunities in the interest of student success and the legacy of the institutions we are charged to lead.

Presenter(s): Dr. Ereka Williams, NILOA Coach and Associate Dean, Fayetteville State University

Finding Your Best Fit: Tips for Assessment Training

Is educating faculty and staff on effective assessment practices part of your role? Successful assessment education can create collaborative and productive IE processes that result in valuable data that units can act on. However, every campus and program has a unique personality and process, and the approach to creating an active culture of assessment is just as varied. Come join this interactive session where we will share and discuss some very practical strategies to teach effective assessment practices. Topics will include: training models, the assessment professional’s role in training, challenges with training, potential solutions for these challenges, along with tips and resources to improve training. This collegial share session will provide attendees with ideas on all aspects of training, as well as the opportunity to share with and learn from other attendees. Find out about other resources that will help you to be sure your culture of assessment is truly leading to the improvement of teaching and learning on your campus.

Presenters: Ray E. Van Dyke, Ed. D.; Senior Vice President Weave, Founder and Executive Director Weave Academy, Former Executive Director Office of Assessment and Evaluation at Virginia Tech; Nick Curtis, Ph.D., Marquette University

Concurrent Session #1b
Boulevard

Track: Using Innovative Reporting and Data Visualization Techniques

Meaningfully Mapping and Presenting Benchmark Information in a Program Review

This session will allow the audience to experience the difficulty of organizing non-numeric data from a population of fifteen program in a way that is easy to analyze and present. A mapping process will then be presented that will show a way to organize, analyze, and report the data meaningfully through tables. Additionally, applications beyond the program review process such as curriculum review will be suggested.

Presenter(s): Robert Talley, Liberty University
Concurrent Session #1c

Track: Collaborating with Libraries and Other Co-educators for Quality Assessment

**Key Points of Recent Changes in the U.S. News Best College Rankings: Implications for Assessment & IR Practitioners**

U.S. News recently incorporated social mobility into the Best College rankings. In this presentation, participants will learn key points of those latest changes for the nationally recognized U.S. News Best Colleges Rankings. The presenter will summarize weight changes and interpret their implications for Assessment and IR practitioners. The session will also discuss how Data Integrity, Common Data Set, and IPEDS Outcome Measures are related to U.S. News rankings.

*Presenter(s): Tristan Jiang, Virginia Military Institute*

Concurrent Session #1d

Track: Inspiring and Developing Faculty Assessment Leaders

**Students’ Value of General Education: What Perception Data Tells Us About our Students**

Could it be possible that we are breaking our students? Data gathered from JMU’s First Year and Sophomore Assessment Days seem to indicate as much. But what is really going on? Researchers have gathered additional qualitative data to begin to unpack what our surveys on student efficacy and value of general education might be telling us. Attendees will see our data, have access to our instruments and protocols and be invited to continue this research with the goal of improved student learning.

*Presenter(s): Gretchen Hazard, James Madison University; Kathy Clarke, James Madison University; Brian Leventhal, James Madison University*

Concurrent Session #1e

Track: Inspiring and Developing Faculty Assessment Leaders

**E is for Empower: The RARE Model approach to cultivating faculty assessment leaders**

The RARE Model is a strengths-based approach to assessment practice, developed by the presenters to demonstrate how specific aspects of their disciplinary backgrounds support effective practice in higher education assessment. In this session, the presenters will discuss the components of the RARE Model in depth, including specific strategies within each component, and attendees will explore how a strengths-based, collaborative approach can be employed intentionally to cultivate assessment leadership in our faculty colleagues. Aligning with this year’s conference theme, the overarching goal is to explore how the strategies, especially those in the “E- Empower” component, can inspire faculty assessment leaders.

*Presenter(s): Gina Polychronopoulos, Christopher Newport University*
Concurrent Session #2a

We ALL Assess: Creating a Culture of Assessment among Faculty at a Large Community College

Teaching/Learning/Assessment are all required for student success, and all faculty are engaged in assessment whether they recognize it or not. By bringing this awareness to faculty through sharing/discussing student learning experiences, teaching techniques, and assessment methods, we can and do develop assessment leaders and inspire each other. In this panel discussion, assessment professionals and faculty will share their experiences building a culture of assessment institutionally and programmatically.

Presenter(s): Sharon Karkehabadi, Northern Virginia Community College; Nicole Martello, Northern Virginia Community College; Susan Johnson, Northern Virginia Community College; Gillian Backus, Northern Virginia Community College

Concurrent Session #2b
Track: Inspiring and Developing Faculty Assessment Leaders
Rethinking Our Approach to Creating a Culture of Assessment

This session is designed to help participants rethink their approach to establishing a culture of assessment and continuous improvement at their institutions. The presenter will provide a practical and innovative approach to shifting assessment practices from an act of compliance to a process rooted in continuous improvement, student learning, achievement and success, and overall institutional effectiveness. Participants will learn strategies to gain faculty and staff buy-in as active and willing participants in the assessment process. Participants will review various proven approaches used to help university constituents understand the purpose, value, and impact of engaging in the assessment process.

Presenter(s): Tia Minnis, Virginia State University

Concurrent Session #2c
Track: Inspiring and Developing Faculty Assessment Leaders
Inspiration to Action: Using Program Theory to Enhance Learning Outcomes Assessment

Faculty and student-affairs professionals often have difficulty articulating why and how their programs should “work” (i.e., their program theory). Thus, for too long, assessment efforts have not incorporated program theory as a way to meaningfully situate assessment within a program. Program theory and logic models can motivate faculty and staff to engage in useful assessment. We present examples that demonstrate the utility of communicating program theory. We share a multi-step process of developing theory-based programs. Attendees will learn how to create logic models and undergird them with theory, and will appreciate how program theory guides and inspires data-based program improvement.

Presenter(s): Andrea Pope, James Madison University; Chris Patterson, James Madison University; Samantha Gonzalez, James Madison University; Sara Finney, James Madison University
Concurrent Session #2d
Track: Collaborating with Libraries and Other Co-educators for Quality Assessment

The Efficacy of Tutorial-Test Model for First-Year Information Literacy Skills Competency Development

JMU has used a tutorial-test model to develop information literacy competencies for 20 years. All students must demonstrate information literacy competency by the end of their first academic year. This model is efficient as we can point to many years of data that all returning students are meeting our information literacy outcomes. But what do students think of this model? JMU researchers have begun a study that looks beyond our data and dives in deep with our students’ perception of how well this model helping them develop information literacy competencies.

Comprehensive reform calls for comprehensive assessment – GenEd changes at UVA

In Fall 2017 UVA began the pilot implementation of a new General Education program. To support the burgeoning program, a faculty-led committee was assembled to conduct an assessment of the program focusing on soundness, impact, and outcomes. In this session we will describe this assessment plan and its results. Additionally, we will discuss lessons learned and challenges experienced in conducting a program assessment led by faculty, for the primary purpose of supporting faculty decision-making. Participants will think critically about GenEd reform, the process and purpose of the assessment of such programs, and the necessity, opportunities, and challenges of faculty-led assessment.

First Things First: Building an Effective Story Around Assessment Data

This session will walk attendees through some of the concepts and decisions that make for an effective data-informed story. This includes identifying possible audiences and what kind of information might be most valuable to them, as well as how to “storyboard” or map out the key points of a story and present them in ways that are most likely to resonate with the audience. Attendees will be invited to start developing their own stories through pair-share and other activities. The session content will be presented in the context of SCHEV’s expectations for assessment reporting.

Presenter(s): Jodi Fisler, State Council of Higher Education for Virginia (SCHEV); Jane Robertson Evia, Virginia Tech
Concurrent Session #3b                Boulevard

Track:  Inspiring and Developing Faculty Assessment Leaders

Outcome-Based Assessment: Collaborative and Inclusive Process of Closing the Loop on Student Learning

The elaboration of focused assignments supporting the revised outcomes listed in the syllabi, the collaborative process of streamlining and revising the language of outdated and redundant learning outcomes, whose revision will provide the framework for building robust assessments and lesson guides, along with the drafting of rubrics reflecting the modified outcomes: They are all topics object of current research and application in higher education, as institutions have been aggressively elaborated strategies to continuously address emerging educational needs.

Presenter(s): Ilaria De Santis, Joint Forces Staff College

Concurrent Session #3c                Lee

Track:  Inspiring and Developing Faculty Assessment Leaders

Nobody puts assessment results in the corner! Effectively using assessment results, program theory, and implementation fidelity to evidence learning improvement

Effectively using assessment results is an important part of evidencing student learning and development in higher education. In this session, we discuss the integral roles that program theory and implementation fidelity play in our interpretation of collected assessment data. Presenters emphasize how these earlier considerations in the assessment cycle strengthen the inferences made from assessment results and, ultimately, better evidence student learning. An activity using a mock program’s assessment results, program theory, and implementation fidelity data is used to demonstrate how to apply the concepts presented.

Presenter(s): Rain Garant, James Madison University; Beth Perkins, James Madison University; Thomas Hartka, James Madison University

Track:  Using Innovative Reporting and Data Visualization Techniques

Getting the Band Back Together: Integrating Institutional Research and Assessment for Institutional Effectiveness

Institutional research (IR) and assessment are deeply integrated and should work together to bolster the culture of institutional effectiveness. This presentation considers ways that IR and assessment can benefit form one another and suggests several practical ways that the two areas can align their activities to increase the health of the university at large.

Presenter(s): Kyle Shanks, Howard University; Glenn Allen Phillips, Howard University; Yesenia Espinal, Howard University; Dr. Lu Qin, Howard University; Dr. Bernard, Howard University

Concurrent Session #3e                 Shockhoe

Track:  Other

Administrative Assessment: How to Design and Conduct Meaningful Assessments across Administrative Co-Curricular Units

Across many institutions, there is a heavy emphasis on the assessment of student learning for both curricular and co-curricular units which is then used to highlight strengths and areas of improvement for those units. Especially within administrative units, however, it is important to design and implement a consistent means to measure operational efficiency and effectiveness along with stakeholder satisfaction. This interactive session will describe one institution’s journey towards more meaningful administrative assessments, and provide participants with tools and a framework that can be easily adapted to their own context.

Presenter(s): Erin Schroeder, Liberty University; Tim Fowler, Liberty University; Roger Bryan, Liberty University; Peter Lee, Liberty University

**Using the HEIghten assessment to demonstrate student achievement of the core competencies outlined by SCHEV.**

Institutions of higher education of all kinds — state, private and community — are increasingly being asked for more evidence of student learning. Does your institution have a way to demonstrate your students’ knowledge and skills in the core competencies outlined by SCHEV? ETS recently launched a general education suite of assessments that can be used to document proficiency in the following areas:

- Critical Thinking
- Written Communication
- Quantitative Literacy
- Civic Competency & Engagement
- Intercultural Competency & Diversity

Are you looking to augment your current assessment plan? Have you considered doing a pre/post assessment to document learning gains in these areas? Join our session to learn how the HEIghten® Outcomes Assessment Suite can help you satisfy accreditation and stakeholder requirements and enhance learning experiences.

Using the Political Engagement Project Survey to understand change in college students’ civic competency and engagement

As part of a collection of assessments used inform the civic engagement initiative at James Madison University, the Political Engagement Project Survey (PEPS) was administered to a random sample of students twice: once as incoming first-years and again as students with 45-70 credit hours. Because the same students took the PEPS twice during their undergraduate career, we were able to investigate how civic knowledge, skills, dispositions, and actions change across time. This presentation describes how the average student changes over time and considers explanations for the substantial individual differences in change across students.

**Bridging the Continental Divide: Developing a Culture of Assessment Among Faculty, Administrators, and Institutional Effectiveness Offices**

Building a systematic and effective assessment culture requires strong collaboration among faculty, administrators, and institutional effectiveness offices. Institutional effectiveness office often struggle to get faculty buy-in, and busy administrators, assuming they are knowledgeable about assessment practices, may regard it as the responsibility of institutional effectiveness. The purpose of this session is to provide participants various methodologies Piedmont Virginia Community College (PVCC) is using to build a collaborative and systematic culture of assessment among all constituent groups.

*Presenter(s): Jolene Hamm, Piedmont Virginia Community College; Dr. Leonda Williams Keniston, Piedmont Virginia Community College*
Developing and sustaining faculty assessment leaders: The case of Academic Program Assessment Coordinators

Faculty often tend to rest on their oars after a successful reaffirmation visit. The purpose of this proposed presentation session is to share strategies and activities which an institution of higher learning adopted after a successful SACSCOC accreditation visit to continue to: (1) develop, sustain, and support faculty assessment expertise; (2) develop assessment leaders; and (3) sustain collaboration between faculty and assessment staff, to promote continuous engagement in intentional assessment-related activities that focus on student learning, and continuous program improvement.

Presenter(s): Justina Osa, Virginia State University

Spread the Word: Infographics as Audience Friendly Data

This presentation discusses the use of infographics for distribution of university and college assessment data, analysis, and findings. We discuss Northern Virginia Community College’s Office of Assessment and the decision to use infographics as a key means to offer information to the public. We discuss the process from choosing content, to visual concept (choosing language, images, colors) to website completion. Finally, we discuss our reasoning behind relying on infographics: why some data is displayed in this format while other information is not.

The Citation Project: Using authentic assessment to communicate information literacy outcomes to colleagues, students, and accreditors

Librarians and professors spend hours teaching students how to find resources, but how do students really use those sources in their papers? Inspired by the national Citation Project, librarians at three universities collaborated with teaching faculty and graduate students to examine what types of sources our students used in their writing, how they incorporated those sources, and the various citation conventions they used. This session will emphasize how librarians shared the results with students, campus colleagues, SACSCOC, and SCHEV.

Scholarly Paper Presentation

User-based Assessment in the Academic Library: Citation Analysis as a Means of Improving a Library’s Collection

Traditional methods of library collection assessment such as circulation statistics are only marginally useful in demonstrating collection strength to stakeholders, since these figures cannot show that the borrowed items were necessarily useful to patrons. Coupling collection-based and user-based techniques provides a more complete picture of the library’s utility. More particularly, user-based techniques such as citation analysis offer a unique opportunity for librarians to interact with teaching faculty to determine whether the library holds resources useful to their students. This presentation will address techniques for incorporating user-based assessment into an assessment plan, and will detail the results of two citation analyses.

Presenter(s): Alicia Willson-Metzger, Christopher Newport University
Our Evolving Role as Assessment Professionals

The days of assessment professionals just sitting behind a desk crunching numbers are over. But what should a modern assessment professional be expected to do and what responsibilities do we have to our organizations and ourselves? This conversation will help us think through our evolving profession and get us thinking about the year ahead as well as our respective futures.

Presenter(s): Mr. Isaac Castillo, Venture Philanthropy Partners

Roundtables

Track: Inspiring and Developing Faculty Assessment Leaders
Using assessment results from core curriculum courses to inform teaching and improve student performance: a faculty-driven success story

Teaching faculty are aware of the increasing importance of assessment in higher education but remain largely uninformed about specific campus assessment initiatives. The Virginia Military Institute is empowering faculty by involving them in the assessment of Core Curriculum learning competencies. This session will highlight a faculty-lead initiative that lead to open sharing of inter-departmental scores, improved teaching pedagogies, and higher student performance in the Creative and Critical Thinking competency. A roundtable open forum will allow participants to contribute to a primer of best practices and current challenges in faculty involvement in assessment and open-sharing of assessment scores.

Presenter(s): Anne Alerding, Virginia Military Institute

Building Faculty Assessment Partnerships via the Inevitability of Change

Faculty member resistance to participation in the assessment process may be particularly pronounced when assessment structures and processes change. New timelines, reporting standards, and assessment personnel can reinforce faculty perceptions of assessment as a steady increase in time-consuming record-keeping or encroachment on academic freedom. This roundtable will explore how necessary changes to an institution's assessment structure can be anticipated and redefined as opportunities to initiate and reform partnerships with faculty. Participants will collaboratively identify possible change opportunities at their institutions and leave with ways to anticipate faculty concerns and develop faculty assessment leadership when implementing changes.

Presenter(s): Sarai Blincoe, Longwood University; Dr. Linda Townsend, Longwood University
Beyond “engaging” faculty in assessment: Faculty owning assessment

In the 2015 book, Using Evidence of Student Learning to Improve Higher Education, Tim Cain and Pat Hutchings summarize and reflect on the successful institutional level practices that help shift campus culture to valuing collecting and using evidence of student learning to understand, deepen, and document student learning. At this roundtable, we will review Cain and Hutchings’ summary of these successful practices and consider how we might leverage them on our campuses to develop faculty to become assessment leaders.

Presenter(s): Scott Oates, Virginia Commonwealth University

Toward a Pro-Faculty Assessment Culture: Considering Assessment Through Faculty Role-Playing

This roundtable, led by two VCU faculty members with assessment leadership experience, begins with successful strategies for winning faculty trust and supporting faculty engagement with the process of program assessment. They’ll share recent data documenting dramatically increased faculty involvement. Finally, they’ll ask participants to join in fun, low-pressure role-playing skits that dramatize different faculty perspectives regarding participating in assessment activities.

Presenter(s): Tim Bajkiewicz, Virginia Commonwealth University; Kate Nash, Ph.D., Virginia Commonwealth University

Cultivating leadership by employing a strengths-based approach to assessment practice

In working with faculty, we often highlight positive aspects of their assessment processes to help them build upon the strengths and resources they already have and support effective practice. But how often do we engage in this process ourselves? The goal of this session is to provide the space for participants to reflect on their professional backgrounds and identify what unique strengths they bring to current assessment practices. The facilitator will offer reflective exercises for participants to explore disciplinary diversity and discuss how they could model a strengths-based approach to empower faculty and cultivate assessment leadership.

Presenter(s): Gina Polychronopoulos, Christopher Newport University

How are you Fostering Student Learning Improvements?

After a recent reflection of our institutions academic assessment resources and support mechanisms, we realized that we were not teaching to our desired assessment outcomes. In order to promote assessment-for-learning-improvement, we needed to make some modifications in order to better realize and document learning improvements at our university. This roundtable will provide participants with an opportunity to share current practices, develop ideas, and problem solve ways to advance learning improvements within academic assessment.

Presenter(s): Kelsey Kirland, Old Dominion University

FRIDAY, NOVEMBER 15, 2019

Where Are We Now? The SCHEV Assessment Policy Two Years In

The SCHEV assessment policy was revised and adopted in 2016-17. Since then, VAG members (and others) have talked together about how to meet new expectations around the core competencies, civic engagement, and reporting results. So, where are we now? What happens next? In this session, SCHEV’s Associate for Assessment Policy will share the latest news and insights emerging from the assessment policy implementation, as well as other quality-enhancement initiatives. This will also be a time for attendees to ask questions and engage in conversation with SCHEV about how things are going and what you might like to see in the future.

Presenter(s): Jodi Fisler, SCHEV
THIS YEAR’S CONFERENCE PRESENTERS

Anne Alerding, Virginia Military Institute
Gillian Backus, Northern Virginia Community College
Tim Bajkiewicz, Virginia Commonwealth University
Linda Baughman, Northern Virginia Community College
Candice Benjes-Small, William & Mary
Dr. Bernard, Howard University
Sarai Blincoe, Longwood University
Roger Bryan, Liberty University
Howard Carrier, James Madison University
Kathy Clarke, James Madison University
Cindy Cogswell, Ohio University
Ilaria De Santis, Joint Forces Staff College
Yesenia Espinal, Howard University
Sara Finney, James Madison University
Jodi Fisler, State Council of Higher Education for Virginia (SCHEV)
Tim Fowler, Liberty University
Rain Garant, James Madison University
Samantha Gonzalez, James Madison University
Megan Good, Auburn University
Jolene Hamm, Piedmont Virginia Community College
Thomas Hartka, James Madison University
Gretchen Hazard, James Madison University
Phillip Holmes, James Madison University
Micol Hutchison, Virginia Community College System/ VCU
Tristan Jiang, Virginia Military Institute
Susan Johnson, Northern Virginia Community College
Sharon Karkehabadi, Northern Virginia Community College
Colleen Karnas-Haines, University of North Carolina, Charlotte
Kelsey Kirland, Old Dominion University
Jade Kline, Virginia Tech
Peter Lee, Liberty University
Jenna Lenhardt, Virginia Commonwealth University
Brian Leventhal, James Madison University
Carrie Ludovico, University of Richmond

Jason Lyons, Christopher Newport University
Nicole Martello, Northern Virginia Community College
Cathy Meals, University of the District of Columbia
Tia Minnis, Virginia State University
Kate Nash, Ph.D., Virginia Commonwealth University
Scott Oates, Ph.D., Virginia Commonwealth University
Bo Odom, University of Virginia
Justina Osa, Virginia State University
Brian Paljug, University of Virginia
Dena Pastor, James Madison University
Chris Patterson, James Madison University
Brielle Pedrick, James Madison University
(Joann) Shehani Peiris, Northern Virginia Community College
Beth Perkins, James Madison University
Glenn Allen Phillips, Howard University
Gina B. Polychronopoulos, Christopher Newport University
Andrea Pope, James Madison University
Daphney Portis, Auburn University
Dr. Lu Qin, Howard University
Lee Rakes, Virginia Military Institute
Jane Robertson Evia, Virginia Tech
Lucinda Rush Wittkower, Old Dominion University Libraries
Kyle Shanks, Howard University
Paul Showalter, William & Mary
Robert Talley, Liberty University
Dr. Linda Townsend, Longwood University
David Vess, James Madison University
Joleen Westerdale McInnis, Old Dominion University Libraries
Angie Wetzel, Virginia Commonwealth University
Dr. Leonda Williams Keniston, Piedmont Virginia Community College

GROUP DINNERS AT LOCAL RESTAURANTS

THURSDAY, NOVEMBER 14, 2019

Get to know your colleagues by signing up for one of the group dinners at a local restaurants (optional event, not included in registration). Limited seating at each location. Please sign up in advance at the registration table.

Meet in hotel lobby at 6:00 pm, dinner at 6:30 pm. Your host will lead the way!

**CAPITAL ALE HOUSE**
As part of the community for seventeen years, Capital Ale House is locally owned and operated with a focus on supporting Virginia craft beer, businesses, and agriculture. We are dedicated to making our community a better place to work and live.

**CASA DEL BARCO**
For the past eight years we have explored every region of Mexico time and again in search of the next dish. From the Western Peninsula to Tulum, our culinary team returns from their exhaustive journeys with recipes from the most unexpected corners of the Country.

**SINE IRISH PUB**
Modeled after authentic “city pubs” in Ireland, Siné’s rustic interior was designed and built in the mother country and transported across the Atlantic. The result is a comfortable and traditional Irish pub accessible to all in the Richmond Metropolitan area, with cozy snugs, three bars, and spacious dining areas.

**TARRANT’S**
Tarrant’s Cafe is situated in the Richmond Old and Historic District. It was an important corner bringing drugstore services to nearby residents for over eighty years spanning the nineteenth and twentieth centuries. 130 years later this building is bringing neighborhood service to Richmond’s community with an upscale but affordable restaurant. Steakhouse/American

**THE TOBACCO COMPANY**
The Tobacco Company Restaurant is now a multifaceted entertainment and dining show place. The four story restaurant boasts two distinct dining floors, a cocktail lounge with live music, and a popular night club and dance floor. With all of these options in one place, you never even have to leave the building!
Educational Intelligence to Power Improvement

At Watermark, we empower better learning with innovative technologies that put better data into the hands of administrators, faculty and students everywhere.

Serving more than 1,700 partner institutions worldwide, Watermark can help your institution collect and analyze the data needed to assure the quality of teaching and learning, and drive meaningful improvements in student outcomes and institutional effectiveness.

Visit our booth to learn how Watermark can power improvement on your campus.

Madison Assessment
for their ongoing support.
HEIghten® Outcomes Assessment Suite

DEMONSTRATE YOUR INSTITUTION’S IMPACT ON STUDENT LEARNING

Get more out of your general education Student Learning Outcomes (SLO) assessment with the HEIghten® Outcomes Assessment Suite.

This new series of computer-based, modular assessments can be used to supplement and strengthen your assessment process so that you can confidently address the impact of your general education curriculum.

Customizable, easy to administer and complete, these assessments provide institutions with robust student learning data in critical general education areas that can be used to:

- Improve the curriculum
- Understand the student learning experience
- Support accreditation activities
- Communicate with multiple stakeholders
- Benchmark internally and externally over time

The HEIghten Outcomes Assessment Suite measures the core skills areas identified as being critical for success in today’s society and global economy:

**CRITICAL THINKING**
Measures both analytic and synthetic skills.

**QUANTITATIVE LITERACY**
Evaluates the ability to detect and solve mathematical problems in real-world contexts.

**WRITTEN COMMUNICATION**
Addresses language use, application and process.

**CIVIC COMPETENCY & ENGAGEMENT**
Measures civic knowledge and attitudes, as well as civic participation in activities.

**INTERCULTURAL COMPETENCY & DIVERSITY**
Assesses areas that foster successful social interactions in the culturally diverse global society.

Each module is ready to use, or can be easily customized — add up to 50 locally authored multiple-choice questions and nine demographic questions.
